Fundamentals of
Geotechnical
Engineering

PRINCIPLES OF FOUNDATION ENGINEERING

SIXTH EDITION

BRAJA M. DAS

PRINCIPLES OF

Foundation Engineering

FOURTH EDITION

Braja M. Das

Springer Series in Geomechanics and Geoenvironmental Engineering

Wei Wu *Editor*

Recent Advances in Geotechnical Research

 Springer

He is an Associate Editor for three international journals and serves in the editorial boards of the Canadian Geotechnical Journal and the Indian Geotechnical Journal. As a registered professional engineer of Queensland and a chartered professional engineer, Dr. Sivakugan does substantial consulting work for the geotechnical and mining industries in Australia and overseas, including the World Bank. He has received numerous awards for teaching excellence, including the AMOCO Foundation Award, the AT&T Award for Teaching Excellence from the American Society for Engineering Education, the Ralph Teetor Award from the Society of Automotive Engineers, and the Distinguished Achievement Award for Teaching Excellence from the University of Texas at El Paso. Dr. Sivakugan received his Bachelor's degree in Civil Engineering from University of Peradeniya, Sri Lanka, with First Class Honors. Students can teach themselves with the book, and the chapters and sections are well organized. "About this title" may belong to another edition of this title. He is a Fellow of the American Society of Civil Engineers and Engineers Australia. He has supervised 14 Ph.D. students to completion at James Cook University, Queensland, Australia, where he was the Head of Civil & Environmental Engineering from 2003 to 2014. He is the author of a number of geotechnical engineering texts and reference books and more than 250 technical papers in the area of geotechnical engineering. He earned his MSCE and Ph.D. from Purdue University, West Lafayette, U.S.A. Dr. Sivakugan's writings include eight books, 140 refereed international journal papers, 100 refereed international conference papers, and more than 100 consulting reports. He received his M.S. in civil engineering from the University of Iowa and his Ph.D. in geotechnical engineering from the University of Wisconsin. He earned his MSCE and PhD from Purdue University, West Lafayette, U.S.A. His writings include eight books, 140 refereed international journal papers, 100 refereed conference papers and more than 100 consulting reports. He has received numerous awards for teaching excellence, including the AMOCO Foundation Award, the AT&T Award for Teaching Excellence from the American Society for Engineering Education, the Ralph Teetor Award from the Society of Automotive Engineers and the Distinguished Achievement Award for Teaching Excellence from the University of Texas at El Paso. Nagaratnam Sivakugan received his Bachelor's degree in Civil Engineering from University of Peradeniya with First Class Honours. Dr. Braja Das is Dean Emeritus of the College of Engineering and Computer Science at California State University, Sacramento. He is the author of a number of geotechnical engineering texts and reference books and has written more than 250 technical papers in the area of geotechnical engineering. Review: "The book is very comprehensive and can be used as a reference book for geotechnical design courses. It provides the main design aspects of various geotechnical elements. It gives a good introduction to geotechnical engineering (i.e., Soil Mechanics). Dr. Das' primary areas of research include shallow foundations, earth anchors and geosynthetics. It also gives nice solved examples." "The book is easy to follow. He received his M.S. in Civil Engineering from the University of Iowa and his Ph.D. in Geotechnical Engineering from the University of Wisconsin. Dr. Das is a Fellow and Life Member of the American Society of Civil Engineers, Life Member of the American Society for Engineering Education, and an Emeritus Member of the Chemical and Mechanical Stabilization Committee of the Transportation Research Board of the National Research Council (Washington D.C.). His primary areas of research include shallow foundations, earth anchors, and geosynthetics. He is a fellow and life member of the American Society of Civil Engineers, life member of the American Society for Engineering Education and an emeritus member of the Stabilization of Geomaterials and Recycled Materials of the Transportation Research Board of the National Research Council. About the Author: Dr. Braja Das is Dean Emeritus of the College of Engineering and Computer Science at California State University, Sacramento. He earned his MSCE and Ph.D. from Purdue University, West Lafayette, U.S.A. Dr. Sivakugan's writings include eight books, 140 refereed international journal papers, 100 refereed international conference papers, and more than 100 consulting reports. He is the Associate Editor for three international journals and serves in the editorial boards of the Canadian Geotechnical Journal and the Indian Geotechnical Journal. He has supervised 14 Ph.D. students to completion at James Cook University, Queensland, Australia, where he was the Head of Civil Engineering from 2003 to 2014. Please refine your selection. Dr. Sivakugan received his Bachelor's degree in Civil Engineering from University of Peradeniya, Sri Lanka, with First Class Honors. The maximum number of products that can be compared is 4.
